- ◆ Sunco Saber Tooth "No-Plug" Row Cleaners

Available for Case/DMI Strip-Till and Anhydrous Toolbars

**THE ONLY TRASH DISCS  
- ALL THE OTHERS  
ARE . . . JUST WHEELS !**

# How To Move Trash Without Plugging

## A New Solution For An Old Problem

### *Farming in Trash Requires the Right Equipment*

Leaving more residue when strip tilling or applying anhydrous ammonia to prevent wind and water erosion is a necessary and accepted farming practice. How to move the trash and make an acceptable seed bed has been a problem. Smooth or notched discs move too much soil, causing unwanted planting depressions and leaving the seed bed susceptible to crusting. Finger wheels have no concavity and when placed at an angle skid through the soil, which can bend teeth, and tend to push and wrap trash.

*Sunco Strip Till Floating Row Cleaners solve the problems of strip tilling in heavy residue with their industry exclusive Disc Concavity, Swept Back Tooth Design, and Disc Separation allowing implements to work in the toughest residue conditions without plugging.*

**Now available with standard 13" discs or optional 18" discs**

Available for Blu Jet Anhydrous and Strip Till toolbars

Heavy Duty  
Cast Hubs  
With 2 Triple  
Seal Bearings

### Specifications
